

## A petition to the Jefferson County Board of Commissioners

We support the Planning Commission's recommendations for regulations on shooting facilities:

- Shooting ranges must be surrounded by a minimum 16-foot high above-grade noise barrier;
- Shooting ranges must be completely fenced to a minimum height of 8 feet;
- Organizational training for armed forces, law enforcement, or paramilitary organizations is prohibited;
- All outdoor shooting must occur only between the hours of 8 a.m. and 5 p.m.;
- It is unlawful at these sites to land any aircraft or to discharge firearms from an aircraft or drone;
- They must provide a minimum 500-yard buffer around any lake greater than 20 acres in size.
